

Air Force TENCAP

Tactical Exploitation of National Capabilities

Colorado Springs, CO

“Talon” – An approved, Air Force TENCAP development project

Mission

Exploit National capabilities to deliver rapid, cost-effective & innovative warfighting solutions

Personnel -- 75 Total: 28 Military (8 Rated / 2 Guardians) / 11 Air Force Civilians / 36 SETA Contractors

Warfighters from every Department of the Air Force mission discipline -- teamed with acquisition & technical professionals

Portfolio -- 25-30 active Talons, worth ~\$150-200M including Mission Partner funds

Organizational Strengths

Rapid Capability Development: Typically under 24 months from “Talon” approval to delivery

Risk-Tolerant / Cost-Dominant: “85 percent” warfighting solutions for a fraction of major program cost

Shared funding / Shared risk: Mission partners match Air Force TENCAP investments greater than 1:1

Flexible contract vehicles: Immediate start possible, once requirement validated & funds identified

Bridging systemic gaps: IC / DoD; Ops / Intel; Legacy / Emerging; Air / Space / Cyber / Land / Sea

Operational Focus: Capability designed by Warfighters, for Warfighters

Expertise and Focus Areas

All-Discipline / All-Source Intelligence, Surveillance & Reconnaissance (ISR)

All-Domain Battlespace Awareness (BA): AF TENCAP has changed the paradigm for BA & Decision Superiority through the *Talon Thresher* fusion engine & *Talon Powderhorn* Blue Force integration suite

Space Capabilities: Diverse portfolio supporting military Space operations & bringing Space capabilities to bear across all warfighting domains

Spectrum Warfare: Cyber & electronic warfare portfolios supporting multiple Combatant Commands; employing resilient command & control infrastructures for defense, targeting, implanting & exploitation

Support to Advanced & Long-Range Kill Chains: Robust partnerships with DARPA & Joint Services

Multi-Level Security (MLS): Technical & policy solutions for streaming data across all security domains

Air Force TENCAP delivers rapid, cost-effective & innovative capabilities for our Nation’s critical warfighting needs.
